

CITY OF LODI COUNCIL COMMUNICATION

AGENDA TITLE: Adopt Resolution Authorizing City Manager to Execute Contract Change Order with C. Overaa & Company, of Richmond, for Storm and Waste Water Pump Station SCADA Integration Under the Surface Water Treatment Facility Project Contract . (\$450,000)

MEETING DATE: December 19, 2012

PREPARED BY: Public Works Director

RECOMMENDED ACTION: Adopt resolution authorizing City Manager to execute contract change order with C. Overaa & Company, of Richmond, for storm and waste water pump station SCADA integration under the Surface Water Treatment Facility project contract, in an amount not to exceed \$450,000.

BACKGROUND INFORMATION: The contract was awarded to C. Overaa & Company on October 20, 2010. The facility received an "Interim Approval to Operate" from the California Department of Public Health on November 20, 2012 and is currently undergoing a 30-day performance test. Staff anticipates formal Council acceptance of the project in January 2013.

As a part of the contract, all operating City well sites were integrated into the Surface Water Treatment Facility (SWTF) SCADA system so they can be monitored and controlled at the SWTF operations center.

The requested change order will upgrade the nine City wastewater and 12 City storm water pump station communication systems so they may be integrated into the SWTF SCADA system for monitoring and control. Once this work is completed, Public Works staff will be able to monitor and ultimately control all Public Works pump facilities from the SWTF operations center.

Work at each site will include SCADA packs, radio communication equipment, conduit, wiring, antennas and computer programming. It is estimated that each site will require \$21,000 worth of materials and labor. Each site is slightly different and actual costs will not be known until the work begins. The change order will be based on time and materials, not to exceed \$450,000.

FISCAL IMPACT: Completion of this work will permit monitoring of these facilities at the Surface Water Treatment Facility and reduce the funds currently paid to the Electric Utility Department to monitor the pump stations.

FUNDING AVAILABLE: Funding is available within the SWTF project contingency funds (181011).
